TBS Spring Newsletter Headlines:

**ISCD 2013: New FRAX® adjustment model with TBS presented by W. Leslie, J. Kanis et Al.**

With **13 posters** out of 33, TBS was once more the Highlight Topic of the ISCD Annual Meeting held in Florida last month!

Check out all studies' results in our TBS Clinical Update: "The ISCD at a Glance" here:

**TBS Expert Article: Dr. Margaret Paggiosi from Sheffield University presents her experience with TBS**

The **Bone Research Group** of **Sheffield** is an International first-class Research center specialized in measurement techniques including **bone densitometry** equipment. Their studies led them naturally to integrate **TBS in their Applied Research** as it is **the new diagnosis tool** to estimate the microarchitecture texture. Dr. Margaret Paggiosi presents here some interesting findings on TBS in the context of **glucocorticoid-induced osteoporosis**.
